We develop your potentials by managing relationships

3D Plus manufactures high temp. memory products, non-RoHs/RoHs, meeting demands for high reliability, extrem performance and very small form factors.

www.3d-plus.com

active components

SENSITRON SEMICONDUCTOR

Sensitron produces high temp. discrete diodes and integrated power electronics such as motor controllers for oil-/gas exploration markets.

www.sensitron.com

Weiking is a professional manufacturer of high-rel DC/DC converters and special thick-film hybrid ICs used in military, aerospace, vessel, high-speed rail as well as other high reliability markets.

www.weiking.com

API Delevan

Api Delevan manufacturers SMD & thru-hole inductors, chokes & transformers for deep sea & down hole.

www.delevan.com

passive components

EXXELIA TECHNOLOGIES

Eurofarad is a manufacturer high temperature ceramic-, foil-, mica-capacitors and signal filters up to +250°C for oil drilling equipments.

www.exxelia.com

EXXELIA TANTALUM

Firadec produce high temperature tantalum capacitors in wet technology up to +200°C for oil-/gas drilling equipments.

www.exxelia.com

EXXELIA MICROSPIRE

Microspire has more than 25 years of experience in wound magnetics up to +200°C to serve deep sea and down hole markets.

www.exxelia.com

OMNETICS CONNECTOR CORPORATION

Omnetics is a manufacturer of nano- & micro size Connectors and Cable solutions up to +200°C (+250°C) for oil-/gas exploration markets.

www.omnetics.com

interconnect components

Pave Technology is a manufacturer of hermetically sealed electrical & optical fiber connectors and cable seals for high temperature applications.

www.pavetechnology.com

MSA Components is a manufacturers representative for major and leading edge electronic component manufacturers. Our strategic line card offers sales support and engineering design capability for the original equipment manufacturers, contract manufacturing companies and the engineering services community. Our strategy is to build long term relationships.
