MEDICAL

We develop your potentials by managing relationships

3D-PLUS manufactures std. CCD & CMOS Sensor Heads for Endoscopy & various System-In-Package (SIP) solutions for medical systems e.g. X-Ray Camera, Ultrasonic echography, pacemakers of wearable bio monitoring.

www.3d-plus.com

SMC manufactures semiconductor devices such as schottky rectifiers, TVS, TVS arrays & modules, standard, ultrafast & fast recovery rectifiers, small signal switching diodes, Zener diodes for use in medical applications.

active components

SENSITRON SEMICONDUCTOR

Sensitron produces reliable, discrete diodes and integrated power electronics such as TVS—Modules (MIL-Std-1275), SSPCs (solid state power controllers) and motor controllers for medical applications.

www.sensitron.com

Weiking is a professional manufacturer of high-rel DC/DC converters and special thick-film hybrid ICs used in military, aerospace, vessel, high-speed rail as well as other high reliability markets.

www.weiking.com

API Delevan

Api Delevan is a manufacturer of SMD & thru-hole inductors, chokes & transformers for medical systems with requirements for quality and reliability.

www.delevan.com

Firadec manufactures tantalum capacitors in a solid & wet technology for different medical equipments, that require reliability and high-end quality.

passive components

EXXELIA TECHNOLOGIES

Eurofarad is a manufacturer of reliable high-tech products such as ceramic-, foil- and mica capacitors, signal and power filters, potentiometers and slip rings for medical equipments.

www.exxelia.com

Martek Power develops and manufactures standard, modified AC/DC and custom power supplies as well as DC/DC converters. Martek Power supplies products for the medical market.

www.martekpower.com

Microspire has more than 25 years of experience and keeps being a leading company in the wound magnetics world. They serve various medical applications.

www.exxelia.com

interconnect components

Renco Electronics

Renco Electronics manufactures through hole and SMD power magnetics for a broad variety of medical equipments.

OMNETICS CONNECTOR CORPORATION

Omnetics is a manufacturer of connectors & smallest connector/cable solutions. These are offered as COTS, standard & custom connectors for medical equipments (re-useable & disposable).

www.omnetics.com

Pave Technology is a manufacturer of hermetically sealed electrical & optical fiber connectors and cable seals for medical systems like X-Ray Generators etc.

www.pavetechnology.com

MSA Components is a manufacturers representative for major and leading edge electronic component manufacturers. Our strategic line card offers sales support and engineering design capability for the original equipment manufacturers, contract manufacturing companies and the engineering services community. Our strategy is to build long term relationships.
